Throughout her 20's Leticia worked as a lawyer; on the surface, she was the definition of a young woman building success... but underneath she was the living picture of stress. It took 10 years in the ridged corporate lifestyle before she realised that success without fulfilment, just wasn't enough. So, in 2017 she broke free and decided to illuminate a life of purpose that worked for her mind, body and soul. Embarking on an extraordinary journey of travel and self-discovery, with the world's leading experts in personal development and holistic coaching, she began to live out her dream of wellness within. Experiencing a new level of personal freedom and self-fulfilment, she discovered her newfound purpose to give back, to empower fellow female entrepreneurs to pursue their passions and dream BIG.

Fast forward to today and she has built an international, award-winning, online coaching business, supporting other like-hearted womxn to activate their purpose and create beautiful businesses which allow them to align their lives and thrive in life + business - just as she has!

Leticia is the creator of the Create Your Beautiful Biz Accelerator, a cutting edge, 90-day coaching system that guides womxn through a proven cyclical business method, step-by-step business strategy and proven guided roadmap which combines six-figure strategy with holistic living. Leticia teaches soul-searching entrepreneurs how to build and scale their business with heart, working directly with their body, energy and flow, to align their mindset and make a difference, whilst fully thriving by building the business they truly deserve + desire!

Today she's on a mission to empower womxn to live as their most inspired beings by supporting her community to take a holistic and cyclical approach to life and business.
