

About

THE LITTLE DONKEY

A Socially Conscious Fashion Boutique

Do something today that your future self will thank you for.

*For the changemakers & badasses. For the woke folk & the fearless.
For the peacemakers & leaders. & the people that **really** give a damn!*

PEACE OUT FRIENDS.

*Welcome to **The Little Donkey**, a socially conscious boutique and hub to encourage like-hearted people like you, to be courageous enough to take back **your power**. Started originally as a passion project by one badass mama, this female-founded biz was inspired by the US Democratic party and created to inspire change, equality, freedom and those, at times, damn hard conversations.*

At Little Donkey, we know you have so much to offer as the person you are right now. That's why we encourage our community to start where they

are, use what they have and do what they can towards finding fire towards social change.

Connecting you to the causes you care about most. - Every purchase from Little Donkey will include a donation to a non-profit organisation for the issue-at-hand, that means with every purchase, you're helping to support and fighting the good fight for whatever cause your heart is guiding you towards.

Let's stand together, towards a future we can be proud of, for a future we know our little donkeys can grow safe within.

The Little Donkey, changing the world, one purchase at a time.
